

Introduction to the Rhode Island Workers' Compensation Fee Schedule

Each year an attempt is made to expand and clarify the Rhode Island Workers' Compensation Fee Schedule. Significant effort went into making this fee schedule as comprehensive and user friendly as possible. All updates were made per the RI Department of Labor and Training guidelines. Fee Schedule changes in the 2006 book include adding scarring, loss of use, and maximum medical improvement coding, deleting obsolete AMA CPT codes, adding new AMA CPT codes, updating the rates of all codes, data normalization, and updating the hospital rates.

The CPT codes used in the Rhode Island Workers' Compensation Fee Schedule are the copyrighted property of the American Medical Association (AMA).

If there are any questions about the changes made to the Rhode Island Fee Schedule, please contact Matt Carey from the Rhode Island Department of Labor and Training at (401) 462-8127.
